

SETTING UP INTERNET (DATA)

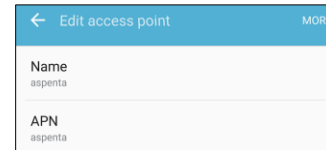

ANDROID

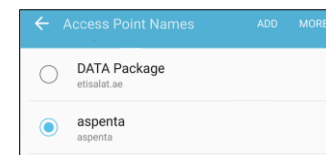

1. Select **Settings > Wireless & Networks > More > Mobile Network**
2. Switch on Data roaming

3. Select **Access Point Names (APN)**
4. Add a new APN by pressing + or menu key
5. Enter '**aspenta**' in the Name and APN fields. Select Save from the menu options

6. Select the new APN titled '**aspenta**'

7. Go to Settings > Data usage. Ensure **Mobile data** is switched on
8. Please power your phone off and turn back on again. You should now be able to use data.

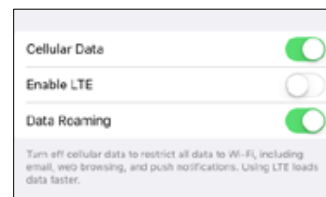

iOS

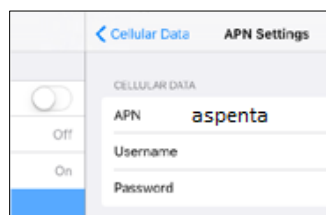

1. Select **Settings > Cellular Data** (or Mobile Data)

2. Ensure **Cellular Data** (Mobile Data) is **On** and **Data Roaming** is **On**

3. Select **APN Settings**, and in the APN field enter '**aspenta**'. Leave all other fields blank

4. Please power your phone off and turn back on again. You should now be able to use data.

If you are still unable to use data please send us an email at support@speeek.net including your Speeek phone number (dial *101# to view your phone number) and screenshot of the APN Settings screen.
